*GAME TABLE, TWIN BEDS AND QUEEN SIZE BED ARE STANDARD IN ALL SIDE BATH MODELS.

Sportscoach-29

Special features of the Sportscoach-29 are virtually unlimited. An engineering breakthrough has allowed us to bring you the ultimate in construction and creature comforts.

It starts with a specially designed chassis. It permits less rear overhang than even many smaller models. Result: Better handling; Wheel wells that are hidden and do not take up valuable interior space; The largest center bath in the industry.

A spacious floor plan. Extra large galley accommodations. A large elegant bed/convertible sofa that combines with two individually adjustable steel framed tables for dining comfort. There's even a built-in dry bar.

The rear stateroom can be used with large twin beds, a huge queen size bed or another dining or game room. Complete with double the wardrobe space and floor-to-ceiling mirrored doors that actually make a "third" dressing room.

All this at a price that makes our competition cringe. See all our literature for complete details on the Sportscoach Line.

TRULY THE SHAPE OF TODAY!
